Rip-Tie= Innovation

SINCE ITS INCEPTION, RIP-TIE HAS BEEN AT the forefront of new product development. Today, Rip-Tie has hundreds of products in over 20 different markets world-wide. We take pride in being the leader in cable management. We continue to design, develop, patent and produce our products here in the USA. Additionally, we partner with companies that can expand our vision.

Together with RFID (Radio Frequency Identification) experts, UTC, our newest collaborator, we bring you the new Rip-Track CableWrap system, our latest innovation in cable management. RFID CableWraps represent the ultimate in inventory management by allowing you to track instantly, every cable going in and out of your facility allowing you to take total control of your cable management system, saving time and ultimately reducing cost. See page 10 for RFID options.

RIP-TIE® is a Registered Trademark of RIP-TIE, Inc.

FOR 35 YEARS, RIP-TIE HAS BEEN TAKING THE FRUSTRATION out of cable management and organization with innovative products that wrap, wrangle and control cords and cables. Our revolutionary designs have helped build a customer base that includes well-known industry leaders — such as LifeTouch, Panavision and General Dynamics — the U.S. military, educational and medical facilities throughout the world.

Exacting Standards

Whether you need to manage miles of cables on a Hollywood set or organize a myriad of computer cords in your home office, Rip-Tie has you covered. Our products are sewn using only the highest quality materials available. Most products are available in the ten EIA color code, and we have the ability to customize and adapt products to meet your specific needs.

Made in the USA

All Rip-Tie products are made in the USA, at our San Leandro, California facility. Quality products, fairly priced, and prompt, courteous service are the Rip-Tie standards. With rare exceptions, we ship within 24 hours from receipt of the purchase order.

Our goal: 100% customer satisfaction.

RIP-TIE

Rip-Lock CableWrap

Our most popular product in cable management has been enhanced with new patented technology. One end of the Rip-Tie CableWrap semi-permanently attaches to the cable, the other end has a pull tab for one-handed quick release. Durable and tested up to 10,000 release cycles. Made in the USA. Patents: US #8,615,854, Japan #JP5624889 B2, European #EP2 219 487 B1

NEW PATENTED TECHNOLOGY. ATTACHES IN SECONDS!

STEP ONE

Insert label end of CableWrap around cable and through slot in the Rip-Lock.

STEP TWO

Slide the Rip-Lock tightly against cable. It's now locked permanently in place.

STEP THREE

Secure the CableWrap tightly around the cable bundle.

THE RIP-LOCK KEY

Easily move the CableWrap from one cable to another with the Rip-Lock Key.

Radio Frequency Identification (RFID) uses electromagnetic fields to automatically identify and track your cables. RFID demo at 4Wall, Las Vegas demonstrates quick check-out and return, by reading contents while transporting cases through a portal.

**RIP-TIE
PREMIUM**

Rip-Track CableWrap

Rip-Tie has added Radio Frequency Identification (RFID) to our robust line of premium CableWraps, called Rip-Track. RFID enables fast and accurate inventory counts and, in some cases, Rip-Track RFID can even be read through a closed road case.

Each RFID Rip-Track CableWrap has a unique identifier that allows you to check out gear accurately and in seconds! Use the “Find” application on a portable hand-held RFID reader to locate a stray cable lost in the warehouse. Just wand the reader back and forth, to locate the missing cable. Rip-Track is compatible with Global (860 – 960 MHz) RF Protocol ISO-18000-6C, EPC Class 1, Gen 2, used worldwide!

Our RFID Rip-Track system is perfect for industries such as film and television equipment rental houses, concert tours or any industry that moves large volumes of cables on a daily basis.

Call us to discuss how Rip-Track RFID technology can organize your cable inventory while saving you time and money.

CinchStrap

These heavy-duty utility straps offer extra strength and holding power. CinchStraps act like a pulley system and have countless applications, whether in industrial settings, at home, in the garden, or for activities like boating. Made with the highest quality hook and loop, these products exemplify our exacting standards.

**ONE INCH WIDE
CINCHSTRAP-EG**

Can be attached to a wall, over a doorway, onto a wiring rack or other surface. The non-magnetic brass grommet can be oriented in any direction and evenly spreads fastener load.

**ONE INCH WIDE
CINCHSTRAP**

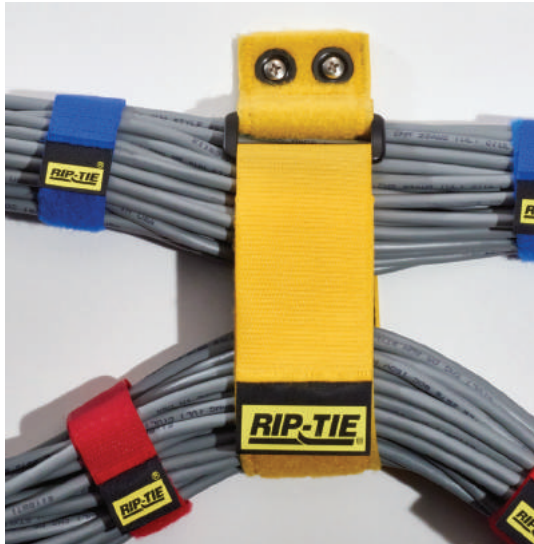

When you need a pulley system to help wrangle your wires, reach for a CinchStrap. Our highest quality cable organizers are extremely durable and tested up to 10,000 release cycles.

**TWO INCH WIDE
CINCHSTRAP**

CinchStraps are all about quality—the straps are sewn (much stronger than ultrasonically welded). The extra holding power of CinchStrap makes it a good choice for dynamic loads.

Premium CinchStrap

TWO INCH WIDE CINCHSTRAP-EG

- 2" CinchStrap-EG has two brass spur grommets to support heavier cable runs.
 - Grommets are spaced 7/8" on center.
 - 1-1/8" on center to match standard rack hole dimensions available by special request.
- Also available with webbing*.

MULTIPLE CABLES IN A CABLECATCH

Peel away backing makes the CableCatch easy to install and the "Soft Hold" maintains the integrity of the cable. Re-usable and environmentally friendly, the CableCatch is a much better alternative to duct tape or nylon ties for organizing high performance data cables.

ADHERES TO
THE WALL
TO KEEP
CABLES OFF
THE FLOOR

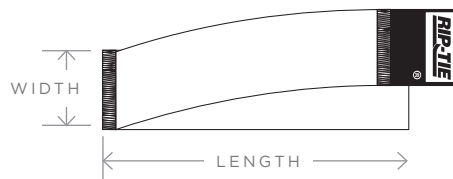

CABLECATCH

Acrylic pressure sensitive adhesive securely attaches CableCatch to equipment racks, desks or walls. One quick pull of the tab releases the cable for quick equipment set-ups.

FIND THE SIZE THAT'S RIGHT FOR YOU

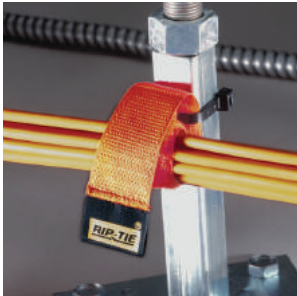

1. First determine the diameter of your maximum cable bundle size
2. The maximum cable bundle size will define the length of your CableCatch
3. Find the appropriate product code on the chart above

Suspending cables is a snap with Rip-Tie's CableHanger. Attaches permanently to a vertical post and wraps around a cable bundle. A great way to keep group runs segregated. CableHangers are easily released and retied, so adding, subtracting and replacing cables is a breeze. Tested up to 10,000 release cycles.

RIP-TIE LITE SERIES

***Durable Up to
200 Releases.***

***Sizes Small Enough
to Accommodate
USB and Earbud Cords
and Large Enough to
Contain 6.0" Bundles.***

***Available in a
Variety of Colors***

Perfect for seasonal cord control projects, like organizing your home theatre system or clearing the clutter of cable wires behind your desk.

RIP-TIE MINI

Designed for small cables, such as USB adapter cables for mobile phones and earbud cords for portable music players. The mini puts an end to the mess of tangled cords in bags or pockets.

STANDARD COLORS

BLACK (BK)
WHITE (W)

RIP-TIE LITE SERIES

Cord & Cable Control

Attach in seconds to declutter and detangle any number of small cables, cords or wires. Our lite series are made of double-sided hook and loop, tested for at least 200 release cycles. Perfect for use on equipment, home theater and audio systems, and other cables that get adjusted just once or twice a year. Made in the USA.

MADE OF ONE PIECE OF DOUBLE-SIDED HOOK AND LOOP. A DIE-CUT SLOT ALLOWS FOR ATTACHMENT TO A SINGLE CABLE; CHADS REMOVED.

RIP-TIE LITE

Rip-Tie Lite is ideal for bundling and organizing computer and network cables.

PLENUM RATED RIP-TIE LITE

Meeting the special fire-safety requirements of plenum spaces. These products are manufactured from Polypropylene and Nylon.

RIP-TIE LITE PLUS

Rip-Tie Lite Plus has the same durability as Rip-Tie Lite. Lower cost and lower profile than Rip-Tie Lite. Sold in minimum quantities of 50. Thickness .03"

Rip-Tie Lite Series

RIP-TIE MINI

Any small cable bundle can be controlled with the Rip-Tie Mini. Perfect for USB adapter cables or earbud cords, and organizing fibre optic cables. Each package contains a quantity of seven 1/4 x 3-1/2" wraps. Available in bulk quantity packages of 56, 252, 1008 and 2016 bulk packs for commercial applications.

A vertical photograph on the right side of the page shows a stack of white cables. Several orange and red RIP-TIE straps are wrapped around the cables. The straps have a textured, woven appearance. The top of the image shows a close-up of a brown, textured object, possibly a waffle maker, which is one of the appliances mentioned in the text.

RIP-TIE ECONO SERIES

***Perfect for the Budget
Driven Consumer***

Moderate Use

***Durable Up To
2,000 Releases***

The EconoSeries is made for those cables and cords that don't require daily fastening and unfastening. Great for managing occasional-use tools and appliances, like the shop vac you get out of the garage once a month or the waffle maker you dig out for special gatherings. Our economical design features a die-cut rounded end for quick release.

Rip-Tie EconoSeries

ECONOWRAP

Available in a variety of widths and lengths, the EconoWrap is great for controlling cables and cords. The gentle-hold hook and loop is simple and easy to use, while the die-cut rounded end makes for a quick release.

RIP-TIE

RipWrap

RipWrap offers all the holding power of gaffer tape, but with none of the gummy residue. Use in theater, photography, film and television production. The possibilities are endless!

Polyester construction makes this wrap ideal for marine and outdoor installations, great for nurseries or gardening. RipWrap can also be used to bundle low voltage cables instead of nylon wire ties or tape.

- Both continuous and perforated rolls are available.
- Tested for 25+ release cycles.
- Least expensive hook and loop alternative to sticky tape.

UNITAG CABLE LABELS

Unitag Cable Labels were designed to deal with the classic problem—how to easily distinguish one cable from another. Labels can be rotated 360 degrees for easy viewing (even in hard-to-reach areas, like behind computer desks or in wiring closets). The labels are easy-to-install, interchangeable and reusable. Write directly on the surface with a marking pen, or add your own printed label.
